

## GARDENIZLY POTTING SOIL

- Gardenizly technology uses specifically designed potting soil. i.e . mixture of soil and compost at a secret ratio.
- The unit takes thirteen (13) of 30 dm bags.
- Each bag weighs nineteen (19) kg.
- The potting soil is organic in nature (No synthetic additives).
- The soil can be productive for a minimum three year period in the unit. i.e it may be replaced after at least three years.
